who benefits and who loses when emotions are described in particular ways how do metaphors such as hold on and let go affect people s emotional experiences banned emotions written by neuroscientist turned literary scholar laura otis draws on the latest research in neuroscience and psychology to challenge popular attempts to suppress certain emotions this interdisciplinary book breaks taboos by exploring emotions in which people are said to indulge self pity prolonged crying chronic anger grudge bearing bitterness and spite by focusing on metaphors for these emotions in classic novels self help books and popular films banned emotions exposes their cultural and religious roots examining works by dante dickens dostoevsky kafka forster and woolf in parallel with bridesmaids fatal attraction and who moved my cheese banned emotions traces pervasive patterns in the ways emotions are represented that can make people so ashamed of their feelings they may stifle emotions they need to work through the book argues that emotion regulation is a political as well as a biological issue affecting not only which emotions can be expressed but who can express them when and how

this book analyzes the governance of illegal immigrants in ethnic areas along china s southwest border since china is not an immigrant country and lacks an immigrant culture the goals of law enforcement departments are limited to sanfeirenyuan three types of illegal persons illegal immigrants illegal residents and illegal employees the transformation of sanfeirenyuan an issue that has plagued china for many years into an illegal immigration governance issue that is of general concern to the international community has led to fundamental changes in research methods and research topics the research presented here makes the issue china now faces part of global issues by using the worldview on china s issues to assess current problems it can also show how china s solutions can be applied to global issues the unique feature of this book is that it approaches the issue of illegal immigration as an unconscious crisis accordingly it holds substantial value in terms of exploring the theoretical basis of and

governance methods for maintaining national security in the context of globalization as well as the early warning mechanisms and crisis management in the context of china s national security since china has a long southwest border the stability and security of border ethnic areas have long played a decisive role in the stability and security of the country as a whole if the frontiers are stable the country enjoys enhanced security consequently investigating the governance mechanism for illegal immigrants in the ethnic areas of the southwest border is of considerable practical relevance this book offers a valuable asset for researchers in related fields and can be used as a reference book for students of national security it also benefits practitioners in relevant management departments

this book presents an ethnographic study of contemporary ticket touts in the uk despite the recent interest in the topic of black market ticket sales media coverage and parliamentary interventions over the last ten years have revealed a widespread lack of knowledge with regard to the phenomenon of touting and the players engaging in the practice the rise and rise of illegal ticket touting sheds light on the world of touting and delivers an authentic picture of the individuals involved of their methods values and motivations for performing ticket touting as an organised entrepreneurial deviant activity the touts varied methods of buying and selling tickets the hierarchical structures and strict ethos of their criminal organisations and their specific modi operandi for evading detection and arrest both on the streets and online are focal points of the study of equal importance are the touts attitudes perceptions and adaptations to or outright dismissal of society s legal and moral frameworks this book illuminates why historic and renewed attempts to challenge ticket touting have been unsuccessful focusing on inadequate legislation a lack of enforcement and the widespread corruption and exploitable loopholes that exist within the official primary ticket market an accessible and compelling read the rise and rise of illegal ticket touting will appeal to students and scholars of criminology sociology social policy policing and all those with an interest in live music and sport and the hidden practices

that lurk beneath the surface

the book is the culmination of the authors many years of teaching and research in atomic physics nuclear and particle physics and modern physics it is also a crystallization of their intense passion and strong interest in the history of physics and the philosophy of science the book gives students a broad perspective of the current understandings of the basic structures of matter from atoms nucleus to leptons quarks and gluons along with the essential introductory quantum mechanics and special relativity fundamentals aside the book retrospects the historical development and examines the challenging future directions of nuclear and particle physics interwoven within the content are up to date examples of very recent developments and future plans that show in detail how the techniques and ideas of atomic nuclear and particle physics have been used and are being used to solve important problems in basic and applied areas of physics chemistry and biology that are closely linked to the prevailing major societal problems in medicine energy resources new custom made materials and environmental pollution as well as areas that encroach the broad cultural and historical interest the uncertain path of success and failure opportunities seized and missed and the axiom of probability and scientists intuition in the unfolding human drama of scientific discovery are vividly presented throughout the highly perceptive book readers especially the students are encouraged to reflect on problems and ask questions

recent years have witnessed an increase in the attention given to the later stages of criminal careers research upon this topic has charted the main factors associated with the termination of criminal careers outlined some of the possible reasons behind these relationships and started to develop theoretical explanations for such relationships collected together for the first time are some of the most important contributions to this field of research the collection focuses upon the initial explorations into this topic the most commonly observed findings the cessation of offending by specific offender types and theoretical matters an introductory essay by the editor provides a thorough overview of the work in this area and highlights the reasons why the termination of

criminal careers will become increasingly important to criminologists and criminal justice policy makers alike
